Section GENERAL POLICIES	Agencies Affected ALL
Title USE OF PRODUCTS CONTAINING PHOSPHORUS	

- AUTHORITY: [Wis. Stats.](#) 100.28
- SCOPE: - to establish policy regarding the use of products containing phosphorus
- CONTENT: I. State agencies will not purchase or use products that contain more than 0.5 (one-half of one) percent phosphorus by weight which cannot be sold to the public at the retail level.
- A. Exceptions to the above are:
- 1) More than 8.7 percent for machine dishwashing or cleansing of medical equipment.
- 2) More than 20 percent for water conditioners.
- B. The following two areas are exempt from PRO-D-14:
- 1) Cleaning agents used for industrial processes. (State agency use will not be interpreted as industrial use.)
- 2) Cleansing of dairy equipment.
- II. The State Bureau of Procurement may waive the application of this policy in any case where health, safety, or public welfare would be negatively affected.
- III. State agencies will submit each case with documentation to the State Bureau of Procurement on an individual basis.

Authorized:

Director
State Bureau of Procurement
